

Lash Lift Aftercare

After your lash lift, you should:

- Not get them wet for 24 hours as this can cause the lift to drop
- Brush them up rather than down as for them to stay looking lifted
- You can wear mascara after 24 hours have passed
- Do not use eyelash curlers as this can make them curl back
- Do not have another lash lift before 6 weeks as this can over process the lashes
- Don't pick / pull at your lashes after a lash lift
- Avoid strong sunlight or uv light if they have been tinted during the LVL process
